INTRODUCTION

After having reviewed the guidelines for developing a discipline code from the Kentucky Department of Education, a student code of conduct committee was formed and given the responsibility to formulate a discipline code for Marion County Schools. At the initial meeting of the committee, a packet of materials was given to each member. From these materials, which included the guidelines on student discipline from the Kentucky Department of Education and other materials gleaned from local policies on student conduct, the committee was given the responsibility for drafting a code of conduct. The committee was divided into subcommittees to develop recommendations for format and content of a code of conduct. After having worked in subcommittees, the whole committee came back together to resolve any issues which might have to be dealt with by the entire committee. One point of concern was whether there should be separate levels for the elementary, middle and high school student or whether there should be a common standard at each level of misconduct for all students. The final decision was that there should be only one level of misconduct for all students, but that there should be flexibility in the application to take into consideration the developmental state of students in elementary, middle and secondary schools.

It was also decided that there will be an annual review of the code conducted by the original committee and/or another committee appointed to do so sometime during the summer months when schools are not in session. The idea behind the decision to review the code during the summer months was to allow for the time necessary for review and yet to get the revised form into the hands of students, parents and educators.

In order that the school community might be made aware of what is expected from all parties concerned as related to student discipline, it was determined that each school is to develop an effective distribution and orientation process by which students, parents, teachers, administrators and the news media become fully familiar with the code. The orientation is to occur annually at the beginning of each school year.

In keeping with the original recommendation, a review of the code was conducted to allow for changes and updates. The committee, composed of principals, teachers and parents, was asked to survey the people they represent for problems or areas of concern of the code.

The Student code of conduct as revised was reviewed by legal counsel and approved by the Marion County Board of Education on August 12, 2016.

School and District policies concerning behavior and communications apply to all use of networks. The network is provided to conduct research and communicate with others. Access to network services is provided to individuals who agree to act in a considerate and responsible manner. Parent permission is required for minors. Access is a privilege, not a right. Access entails responsibility. Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private. In accordance with Policy Number 08.2323 Student Access to Electronic Media in the Marion County Policy Manual, a written parental request shall be required prior to the student being granted independent access to electronic media involving District technological resources. The required permission/agreement form, which shall specify acceptable uses, rules of on-line behavior, access privileges and penalties for policy/procedural violations, must be signed by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. In order for a student to be released from the program, he/she must have satisfactorily completed his individualized program. The officials of the Alternative School shall make the final decision regarding whether a student complied with expectations during assignments. In situations of substantiated bullying, the parents, legal guardians, or other persons exercising custodial control or supervision of the involved students shall, without undue delay, receive written notice (including fax or email) of the bullying incident, that an investigation has occurred, and the consequences have been taken as believed to be warranted under all of the circumstances made known during the investigation.

Violation of this policy shall constitute reason for suspension or expulsion.

XVI. DRUG-TESTING POLICY

The program consists of the "Alcohol and Drug Safety Policy for Voluntary Participants, Athletes, Drivers, and Students Who Participate in Extracurricular Activities at the High School Level".

ALL STUDENT PARTICIPANTS IN EXTRA-CURRICULAR ACTIVITIES AND VOLUNTARY PARTICIPANTS, AND THEIR PARENTS OR LEGAL GUARDIANS MUST READ THE FOLLOWING POLICY AND MUST ACKNOWLEDGE, IN WRITING, THAT THEY HAVE READ THE POLICY, UNDERSTAND THE POLICY, AND AGREE TO BE BOUND BY THE TERMS AND CONDITIONS CONTAINED IN THE POLICY.

Statement of Purpose

The policy is further intended to provide incentives to Marion County High School students who voluntarily choose to participate in Marion County High School extracurricular activities to avoid such use. This policy is not designed to be used, nor shall it voluntarily be used in any manner, to provide a source of information for law enforcement agencies or for the prosecution of the student or to limit the student's participation in the school's activities, other than the limitations imposed by this policy. Without a specific written authorization from the tested student or parent, if the student is under eighteen (18) years of age, no test results of any student shall be released to any person other than is required by law or lawfully issued subpoena or court order.

In order to accomplish its purposes, this policy provides for suspension and termination of participation in Marion County High School extracurricular activities when deterrence is unsuccessful. To determine compliance with the policy, it provides a testing program to identify student participants who are unlawfully using alcohol and other drugs. For these students, the policy provides incentives for rehabilitation through possible reinstatement to extracurricular activities.

Applicability

This policy applies to all students who choose to participate in Marion County High School extracurricular activities, students who drive to school and those students who enroll voluntarily or are enrolled by their parent(s) or guardian(s).

Testing Program

In order to accomplish the purpose of this policy, each student participant in Marion County High School extracurricular activities and those student who voluntarily enroll or are enrolled by their parent(s) or guardian(s), shall be required to participate in a program of substance abuse testing. Testing shall be accomplished by the analysis of urine specimens obtained from the student participants. Collection and testing procedures shall be established, maintained, and administered to ensure (a) randomness of selection procedures, (b) proper student identification, (c) that each specimen is identified with the appropriate student participant, (d) maintenance of

Student Code of Conduct

the unadulterated integrity of the specimen, and (e) the integrity of the collection and test process, as well as the confidentiality of test results. Specific testing procedures implementing this Policy shall be adopted by the Board upon recommendation by the Superintendent.

The parent(s) or guardian(s) of a student selected for testing under this Program shall not be permitted to be present during the administration of the test. Testing procedures shall provide for an alternative to the testing of a urine specimen in the event that the student is physically unable to produce a urine specimen. A student who refuses to submit to the test shall be deemed to have produced a positive test and the sanctions described in this Policy shall be administered.

In the event that a student tests positive after being administered a test, that student shall be permitted to obtain a second test, at the student's expense, from the testing laboratory currently under contract with the Board. The second test must be arranged and administered within twelve- (12) hours of the prior positive test result and shall be conducted at a time selected by the testing lab and at a location away from the campus of Marion County High School, also selected by the testing lab. In the event that the second test administered by the testing lab is negative, the student's suspension from extracurricular activities shall immediately be vacated, the student shall be reinstated to extracurricular activities, no sanction shall be assessed and the initial positive test shall be deemed a "false-positive" test and considered thereafter as a negative test result. Further, in such event, the student, his parent(s) or guardian(s) shall be reimbursed by the Board for the testing laboratory's charges for conducting the second test. Travel and other expenses incurred by the student, parent(s) or guardian(s) shall not be subject to reimbursement.

XXVIII. SUSPENSION

In accordance with KRS 158.150, the Superintendent, Principal or Assistant Principal may suspend a pupil up to a maximum of ten (10) school days per incident.

A pupil shall not be suspended until the due process procedures have been provided as described in KRS 158.150, unless immediate suspension is essential to protect persons or property or to avoid disruption of the educational process. In such cases, due process shall follow the suspension as soon as practicable, but not later than three (3) school days after the suspension.

The principal or assistant principal shall report any suspension in writing immediately to the Superintendent and to the parent of the pupil being suspended. The written report shall include the reason for suspension and the length of time of the suspension.

A student on suspension shall not be allowed to participate in any extracurricular activity sponsored by the school.

In cases which involve students with disabilities, the procedures mandated by federal and state law for students with disabilities shall be followed.

XXIX. TELECOMMUNICATION DEVICES

While on school property or while attending school sponsored or school-related activities whether on or off school property, students shall be permitted to possess and use personal telecommunication devices as defined by law, provided they observe the following conditions:

1. Devices shall not be used in a manner that disrupts the educational process (see policy 09.426), including, but not limited to, posing a threat to academic integrity or violating confidentiality or privacy rights of another individual. Unless an emergency situation exists that involves imminent physical danger or a certified employee authorizes the student to do otherwise, devices shall be turned on and operated only before and after the regular school day. When students violate this prohibition, they shall be subject to disciplinary action, including losing the privilege of bringing the device onto school property. In addition, an administrator may confiscate the device, which shall only be returned to the student’s parent/guardian.
2. Students are responsible for keeping up with devices they bring to school. The District shall not be responsible for loss, theft, or destruction of devices brought onto school property
3. Students shall comply with any additional rules developed by the school concerning appropriate use of telecommunication devices or other electronic devices.
4. Students shall not utilize a telecommunication or similar device in a manner that would violate the District’s Acceptable Use Policy or Procedures of its Code of Conduct.

XXX. TOBACCO/NICOTINE PRODUCTS

Students shall not be permitted to use or possess any tobacco, including alternative nicotine products or vapor products as defined by KRS 438.305 (for example: e-cigarettes), on property owned or operated by the Board, inside Board-owned vehicles, on the way to and from school, or during school-sponsored trips and activities.

Students who violate these prohibitions while under the supervision of the school shall be subject to penalties set forth in the Student Code of Conduct.

XXXI. WEAPONS

It is the policy of the Marion County School System to report to the criminal justice or juvenile delinquency system any student who is carrying, bringing, using, or possessing any dangerous or deadly weapon or "look-alike" in any school building, on school grounds, in any school vehicle or at any school-sponsored activity. To comply with existing requirements of the Individuals with Disabilities Education Act (IDEA) regarding discipline of students with disabilities, our board of education will modify the expulsion requirements on a case-by-case basis for IDEA-eligible students. IDEA-eligible students may be expelled for behavior unrelated to their disabilities, as long as the procedural safeguards required by IDEA and KRS 158.150 are followed.

Non-IDEA eligible students will be expelled for not less than twelve (12) months from their regular school setting in our school system. Non-IDEA eligible students expelled for not less than twelve (12) months from their regular school setting may be placed in an alternative setting in our school system. Such weapons include but are not limited to any pistol, revolver, rifle, shotgun, air gun, or spring gun; slingshot; bludgeon; booby trap device; brass knuckles or artificial knuckles of any kind; knife which is readily capable of causing death or serious physical injury (including but not limited to pocket knives or hunting knives); or any object that is carried for the purpose of inflicting injury on another. Students participating in a class, authorized extracurricular activity or team involving the use of firearms/archery equipment are exempt.

FERPA Notice for Individual Learning Plan – ILP (Middle & High School Students Only)

The Individual Learning Plan (ILP) is a web based tool that the schools will use with students and their parents/legal guardians. It is a comprehensive tool that allows students to compile information about their education while exploring careers and planning for their future. The ILP will contain personal data information, educational information similar to transcripts, and other related students information. This will be created while the students are at school, although accessible off site. Under the Family Education and Privacy Rights Act, a school district requires permission from the parents (until the students is 18 at which point the right belongs to the student) to share an educational file. There are a few exceptions to this requirement; for example, the district is allowed to share the educational record with institutions, including postsecondary, where a student seeks to enroll.

The Individual Learning Plan will make it possible for a student to choose to share some or all the information with others including educational institutions, even those where he or she may not be seeking to enroll, for a one time viewing of student selected information. While technically the ILP is not part of the educational record, it will contain the data also found in the educational record. If you do not wish to have your child share his or her ILP with others, as parents, (or an 18 year old student) you may opt out if you so choose.

Please sign below and submit to the principal of your student’s school within 15 days of the opening of the school year.

I grant permission for my child’s Individual Learning Plan to be shared with interested parties (middle and high school students only). _____ Yes _____ No
